SETUP AREA

HELP!

Welcome, Client name!

This is the Sponsor setup area, where you can create your company's ECommerce website quickly and easily. Simply follow the step-by-step instructions; we've included sample text to show you what kind of information to provide.

Access to the Setup Area is restricted by company code and password to authorized representatives of your company. Providing accurate information is important, so please edit your website as often as you like. To edit your information, point your browser as often as you like to http://www.provider.com/mysite/ and enter your company code and password.

Each section below represents a different page of your website. Simply click on the edit button for each page, review the sample text we've provided, fill out the form with information about **your** business, and then preview your new page by clicking on the preview button.

The page preview allows you to look over the final content of the pages you have created. Once you are happy with your work, you can view your actual working website by pointing your web browser to http://www.provider.com/es/exports. Please save this internet address to see your website on the Internet.

First time visitors must start with "General Information" and complete all sections. Instructions are available to guide you. This entire process should take about one hour. After completing set up, updating your information will take much less time. Use the navigation bars on the left side of each page to save time.

CLICK HERE!

GENERAL INFORMATION

In this section, enter general information such as company name, contact information, etc. The information you provide is used on all of the pages on your website, so please be accurate.

102

HOME RAGE

Your Home Page is the first page that visitors to your website will see. It should welcome the visitor and give them a short introduction to your company and its products. Click the edit button to set up or edit this page.
